DETAILED ACTION

Claims 1-6 and 8 are under consideration in this application.

Claim 7 remains held withdrawn from consideration as being drawn to nonelected subject matter CFR 1.142(b).

Election/Restrictions

The restriction requirement is deemed sound and proper and is hereby made FINAL.

Claim 7 will not be rejoined because it is not drawn to a process of preparing a compound of claim 1. Further, claim 7 is of different scope than the compounds of claim 1 because it requires additional adjuvants. Moreover, claim 1 is not allowable since it contains nonelected compounds.

Again, this application has been examined with regard to the elected compounds wherein R_4 is phenyl substituted by (optionally substituted) tetrazole and R_1 - R_3 , R_5 - R_8 , m, n, p, q and W as set forth in claim 1, exclusively. All additional heterocycles pertain to nonelected subject matter. Moreover, the compounds wherein R_4 is phenyl substituted by phenyl, benzyl, phenoxy, etc., have already been patented.

Allowable Subject Matter

Claims 2-5, 6 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims and if rewritten directed solely to the elected compounds.

Art Unit: 1625

Claim 1 is objected to as containing nonelected subject matter. The objection may be overcome by limiting the claim to the subject matter indicated as being examinable, supra. A claim so limited would appear allowable.
